AUDITOR'S CERTIFICATE

Salisbury, N. H., July 15, 1936.

This certifies that I have examined the accounts of the School Treasurer for the year ending June 30, 1936, and find them correctly cast and properly vouched.

GEORGE C. EMERSON, Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

As more children have attended high school this year than was anticipated when last year's budget was made, the school board's estimate was more than \$100 too small for this item.

Because of the small number of Andover pupils left in the Flaghole School, the Andover Board was about to close that school. This would leave three Salisbury children in that section for whom it would be very difficult for Salisbury to provide satisfactory schooling.

It was finally arranged that Andover and Salisbury would run the school jointly for this year each paying according to their number of pupils. This cost for Salisbury will be about \$300 more than the \$108 raised for payment of tuition at Flaghole.

We estimate that these unforeseen increased costs at Flaghole and in high school tuition will cause a deficit of \$375 for the current year.

The State Aid due us on this year's budget should more than cover this and possibly we may be able to secure this before the year closes.

The chemical toilets at South Road School were installed about fifteen years ago. While the tanks put in later at the Heights can be drained into a cesspool, those at South Road have to be pumped out two or three times a year. The location in a cold shed is unsatisfactory both because of distance from the schoolroom and because of freezing. It has been difficult to keep them in a sanitary condition. It would not be worthwhile to attempt to relocate this old equipment.

We estimate that a satisfactory installation of two septic toilets could be made in the entrance hall just outside the schoolroom at a cost of \$400.

We, therefore, recommend that the district raise \$400 to be used, if necessary, to cover the deficit for the current year and authorize its use for putting in these toilets, if we can secure our State Aid in time to cover the deficit.

The employment of a music teacher this year helps to place much more emphasis on this subject which will make a contribution of real value to the lives of many of the children. With no change in the regular teachers, other subjects in the curriculum are being taught with the usual thoroughness.

Attendance has been good, tardiness not excessive and there have been no serious problems in discipline.

We appreciate the financial support which the citizens have given in recent years, making it possible to again secure state aid in the emergency created by the increased cost of schooling children in Flaghole School in Andover.

Respectfully,

GEORGE W. SUMNER.

February 1, 1937.
